PRO&PACK EXPO 2017

21 22 23 SEP 2017 | Hyderabad INDIA

**VENUE:**

**HiteX Exhibition Center, Hyderabad (Telangana) INDIA**

The Indian Pharma Machinery Manufacturers' Association (IPMMA) Member Companies engineering the Indian pharma manufacturing plants for more than 50 years, ensuring the robust equipments meeting the international specifications at highly competitive costs – both, installation as well maintenance. IPMMA is emerged as the backbone for the Indian pharmaceutical manufacturing. At the same time, IPMMA Member Companies are also exporting to more than 120 countries across the world, and have attained the global recognition and demand with trust of a quality product.

PHARMA Pro&Pack Expo 2017

(jointly organized by IPMMA and GPE EXPO PVT. LTD.) is the business platform to showcase the latest pharma machineries & allied services. The event also offers a neutral trade domain to bring together the buyers & sellers and interact for further innovative developments. The 3 days Exhibition is scheduled during September 21 to 23, 2017 at HITEX, Hyderabad, India, and co-located with IndiaLab Expo 2017 / Analytica Anacon 2017 (organized by MMI India Pvt. Ltd.). Since the launch in year 2013, The Exhibition – PHARMA Pro&Pack Expo is always remained first-choice for the first-time exhibiting companies, this proves the recognition, trust, and confidence of the industry.

The fundamental reason behind organizing PHARMA Pro&Pack Expo exhibitions is to directly support and encourage the Indian Pharma machinery export trade, especially those from the SME sector. The show offered ample business opportunities to SME's to showcase their engineering skills to serious buyers on a proven business platform and for first time exhibiting companies to showcase and launch new products and services to around 18,000 trade visitors.

An overwhelming response from the industry is being noticed to attend 5th PHARMA Pro&Pack Expo 2017 exhibition on larger scale.
