## Indian Pharmaceutical Machinery Industry: Engineering pharma plants in India & in 110 countries worldwide

**PHARMA Pro&Pack Expo 2017: Biggest platform to showcase MAKE IN INDIA pharma engineering equipments**

India - one of the strongest pharma-economy across the world, has emerged as single point resource for; Pharma Machineries and Engineering Equipments in the world pharma markets. The **MADE IN INDIA** pharma machineries are being exported to more than 120 countries worldwide while India exports API, Bulk Actives and Formulations to more than 120 countries globally. Meeting with quality standards set by international regulatory agencies, **MADE IN INDIA** pharma-engineering machineries have attained the global recognition and demand with trust of a quality product.

Fulfilling the needs to promote the **MAKE IN INDIA** internationally; PHARMA Pro&Pack Expo 2017 (organized by IPMMA and GPE EXPO PVT. LTD.) co-located with IndiaLab Expo 2017 / Analytica Anacon 2017 (organized by MMI India Pvt. Ltd.) scheduled during September 21 to 23, 2017 at HITEX, Hyderabad, India; where during 3-days' event, participation from 460+ exhibiting companies is expected. More than 18,000 trade visitors & serious buyers are expected to attend the Exhibitions

Looking to the role played by the Indian pharmaceutical industry in global markets, India is turning in to a '*Pharma Capital*' of the world. The regulatory standards are meeting the high level parameters ensuring very high quality pharma production meeting the international regulations. All these are possible with robust pharmaceutical processing & packaging machineries, API & Bulk Drug Manufacturing Plants & Equipments, and its ancillaries available at the doorsteps for the Indian pharmaceutical manufacturers at highly competitive cost

The Exhibition - PHARMA Pro&Pack Expo 2017 offers business networking platform for Pharma Processing & Packaging Machineries & Materials, Bulk Drug Manufacturing Plants & Equipments, Cleanroom Eqpts & Services, Water Treatment & Utilities Eqpts & Services, Project Consultants & Turn-key Contractors, API, Pharma Formulations & Contract Manufacturing to exhibit and display their products/ services.

Consecutive 4<sup>th</sup> time exhibiting Mr. David Keefer, President, Elizabeth Carbide Die Co., Inc., USA said; "We are exhibiting at this expo for the 4<sup>th</sup> time and the profile of buyers who visit our booth fits in perfectly with the products that we manufacture. Buyers are spending a lot of time reviewing our machinery and we successfully closed a few orders with the buyers who visited our booth. We are a joint venture partner with Parle Global Technologies and they too are happy with the results that we generate from this show."

### Business networking platform to exhibit and display products / services:

- Pharma Processing Machineries
- Packaging Machineries & Materials
- Bulk Drug Manufacturing Plants
- Cleanroom Eqpts & Services
- Water Treatment Eqpts
- Utilities Eqpts & Services
- Project Consultants
- Turn-key Contractors
- API, Pharma Formulations
- Contract Manufacturing

5th  
**PHARMA**  
PRO&PACK EXPO 2017

21 22 23 SEP 2017 | Hyderabad INDIA

VENUE:

Hitex Exhibition Center, Hyderabad (Telangana) INDIA

With the launch of this Exhibition, PHARMA Pro&Pack Expo during year 2013 itself, has emerged as the largest most **MAKE IN INDIA** pharma machinery & lab equipments Exhibition in the Indian sub-continent, and in coming years, it will be growing in multi-folds

The fundamental reason behind organizing PHARMA Pro&Pack Expo exhibitions is to directly support and encourage the Indian pharma machinery export trade, especially those from the SME sector. The show offered ample business opportunities to SME's to showcase their engineering skills to serious buyers on a proven business platform and for first time exhibiting companies to showcase and launch new products and services to around 18,000 trade visitors.

An overwhelming response from the industry is being noticed to participate at PHARMA Pro&Pack Expo 2017 exhibition on larger scale. More information about PHARMA Pro&Pack Expo 2017 can be accessed from: [www.PharmaProPack.com](http://www.PharmaProPack.com) OR Email: [Contact@PharmaProPack.com](mailto:Contact@PharmaProPack.com).

Jointly Organized by:

Mobile/What'sApp: +91 80004 81114

**P**HARMA Pro&Pack Expo exhibitions provide a strong business platform to even a smallest entrepreneur to display his technical skills to national and international pharma buyers. Moreover, the Exhibition remains a healthy trade domain for every exhibiting company with equal opportunity of growth and meets all the trade attendees at the Show.

**Mr. Rattan Singhania**  
Trustee - IPMMA

I am really very happy to attend the shows here and it was very interesting to come across new technologies and developments in the field of pharma machineries.

**Dr. S. P. Rijhwani**  
Chairman - Promed Laboratories Ltd., Vice President - Indian Pharmaceutical Association (IPA)

The 2017 edition of PHARMA Pro&Pack Expo will be the fifth edition, which would be beneficial in terms of the **MAKE-IN-INDIA** program initiated by the current government, and at the same time, it was very interesting to have foreign buyers alongside the national buyers inspecting our products. Seeing is Believing and when you showcase and demonstrate the working of your products to buyers at the show, the product speaks for by itself. As far as the qualities of the displays of the exhibit machineries are concerned, there are distinct improvements over the past editions of the Show. The exhibitors have also turned more responsive when compared with the past editions.

**Mr. Mahendra Mehta**  
President, IPMMA, MD - Parle Global Technologies Pvt. Ltd.

I had come here for the first edition and every edition, I found every edition to be bigger with many more new technologies on display and are also well organized. These technologies on display here will help us select machines as and when we decide to buy new machines.

**Mr. Anil Kumar**  
VP (Plant Operations)  
Alkem Laboratories Ltd.

This is my first visit to the exhibition and I really cannot believe that Indian pharma machine manufacturers can develop and produce such high-tech machinery. I have spoken with a few exhibitors here for permanent transfer of technology to Egypt and that is where I see future cooperation between India and Egypt.

**Dr. Ardil Mustufa, Chairman**  
Pharmaceutical Holding Company  
EGYPT

## G.S.T. Seminar 2017

Good and Services Tax, 17th June 2017, The Club, Andheri, Mumbai,  
Seminar Topic Capital Goods Industry in particular to Pharma and Packaging Industry

In our efforts to offer our members best services to manage with the changes in policies and tax structures time and again, IPMMA organised a special seminar on GST preparation at The Club at Andheri, Mumbai on 17th June, 2017.

We were delighted to witness a very good attendance of almost 100 members together with their representatives from the finance departments. We had the pleasure of having the below mentioned highly rated speakers who delivered the machinery industry focussed topics and solutions. They were felicitated by our

honourable President Mr. Mahendra Mehta on the occasion.

Mr. Vasant Bhatt, CA, He is a faculty on Central Excise, Service Tax and GST, Mr. Rakesh Shah, RPM InfoTech Consulting Pvt. Ltd., Mr. Madhukar Hiregange, CA Partner, Hiregange Associates

This was purely an interactive seminar where our members had an opportunity to interact with the speakers to get few their queries addressed and many of the queries were even addressed off the stage by the speakers that benefited the members.

### IPMMA AGM

We are planning to organise IPMMA AGM on 5th August 2017, at The Club Mumbai from 6:30 PM. All are requested to keep themselves available and book the date for this AGM.

Your presence in the AGM will surely add value to the association works. All are requested to attend this AGM on 5th August to interact & Network with us fellow members of the association.

#### What is GST and why is GST?

Goods and Service Tax is being glorified as a system of taxation by which economy will take an upward swing and further it will ease the trade and industry with respect to the indirect tax system of the country.

"Only one" indirect tax must be paid by the trade and industry and all the other indirect taxes will be subsumed in GST.

- \* CGST (Central Goods and Services Tax)
- \* SGST (State Goods and Services Tax)
- \* IGST (Integrated Goods and Service Tax)

#### When to charge IGST/SGST+CGST?

#### What is Supply?

Under GST, the 'Supply' is a fundamental concept and all the provisions of GST revolves around it. Under Supply, there are three key elements namely time of supply, place of supply and value of supply.

Every business carrying out a taxable supply of goods or services under GST regime and whose turnover exceeds the threshold limit of Rs. 20 lakh/ 10 Lakh as applicable will be required to register as a normal taxable person.

#### What is GST Registration?

When opting for the Composition Scheme under GST, a taxpayer will be required to file summarized returns on a quarterly basis, instead of three monthly returns (as applicable for normal businesses).

#### What is Composition

IPMMA has requested and Mr. Vasant Bhat has accepted our invitation to be in our Financial Experts Panel for GST related matters. This has been facilitated for our members to address all their GST related queries that can be addressed through our official mail [mail@ipmma.org](mailto:mail@ipmma.org) and website platforms.

Advise / suggestions received from Mr. Bhat will be sent to members and your master FAQ's will be posted on the association website; updated time to time. All members are requested to take advantage and benefit from this.

**AUTOMATION EXPO 2017**  
12th India International Trade Show
